Chef Montz holds a bag of vinegar. What do you think will happen when he adds baking soda and seals up the bag? Find out at Girls Go STEM!

Girls Go STEM

For Girls in grades 4-8, \$15 per girl

September 18, 2011
1 pm – 6:30 pm

GSCM Urban Program and STEM Center
4806 Seton Drive, Baltimore, MD 21215

At **Girls Go STEM**, you will get to see how fun science, technology, engineering, and math (STEM) can be by participating in some of the many programs that we offer throughout the day. Learn how candy is made through our new **Science in the Kitchen Program** (developed by Johns Hopkins University Center for Educational Outreach), play with some robots, build your own playground, design your own toys, and learn how to survive in the wild like a Girl Scout engineer! This day will feature many career exploration opportunities.

For details or to register go to gscm.org or call 410.358.9711
