Girl Scouts of Central Maryland

GUIDE TO COUNCIL PROPERTIES

Outdoor education and environmental awareness are key components of learning for girls. While camping girls gain independence, build new skills, get a sense of community and develop a deep appreciation for nature. Whether for a day, a week or longer, camping gives girls an opportunity to grow, explore and have fun- and because its Girl Scout camp, girls are always under the guidance of caring, trained adults. Every girl should have a chance to camp!

Girl Scouts have enjoyed the experience and adventure of camping in the great outdoors since 1912 when Juliette Gordon Low, founder of the Girl Scouts, began her first troop. Camping is a unique part of the Girl Scout experience, and a hallmark that sets us apart from many other youth programs. In addition to learning camping skills, girls have the opportunity to develop leadership skills, make new friends, learn a sense of responsibility and develop competencies and life skills which will last into their adulthood. Camping fosters very special memories for girls and adults which last a lifetime!

As campers, we are guests in the natural environment. We come to make observations and discoveries and learn about the world around us. As stewards of natural resources, it is our responsibility to preserve the beauty of our camps and leave them better than we found them. After all, Girl Scouts always leave a place better than they found it!

Girl Scouts of Central Maryland owns four camp properties:

[Camp Conowingo](#), located in Cecil County, is 600 acres of forests and meadow fields adjacent to the Susquehanna River and, is also the site of our summer resident camp program. Throughout the year girls enjoy day camp and troop camping options along with swimming and adventure options including our high and low ropes challenge course.

[Camp Whippoorwill](#), our oldest facility is located on the Magothy River in Anne Arundel County. This facility offers a boathouse and pier for waterfront program opportunities along with a variety of sleeping accommodations for troop camping.

[Camp Woodlands](#) is also located in Anne Arundel County on Broad Creek and is home to historic Lamb Lodge.

Enjoy your camping adventure!

As a leader/advisor, we rely on you to help your girls decide on activities and assist them with the planning to carry out the activities they select. Deciding to go camping or spending the day in the out-of-doors is one of many unique Girl Scout experiences.

Each of these camp sites can be utilized for troop camping, outdoor programs, hiking, cook-outs, and any other outdoor adventure girls can dream of. Information on each of these camps can be found in this publication, including details about their facilities, maps of each camp unit and how to register and reserve a campsite. Specific information on contracts and procedures for the camp you choose will be sent to you with your registration confirmation.

Our properties are primarily utilized on weekends for camping and are available to rent for use by Girl Scouts during the week for events. We invite you to explore the outdoors, new habitats and build skills at day or resident camp during the summer or on the weekends. In addition to troop camping, resident and day camping options, our sites are utilized for various outdoor program education opportunities. We also offer our facilities to individuals and businesses for parties, weddings, business or family retreats, seminars, birthday parties and much more!
